YOUR STYLE AROUND YOU

The interior of the FJORD 39 follows a clear architectural layout with integrated storage, concealed technical access and durable marine-grade surfaces. Four material concepts allow controlled personalisation without altering the structural clarity of the space.

Classic, Sport, Elegance and Polar each interpret the same platform through distinct combinations of flooring, cabinetry tones and ambient lighting – ranging from warm maritime contrasts to cooler, high-contrast technical finishes.

The material concepts are designed to complement the yacht's exterior character while maintaining durability, moisture resistance and long-term wear performance in a marine environment.
